

The Essence of Terrier Type

PRESENTED BY PATRICIA PETERS

Presentation and discussion led by Patricia Peters - a unique opportunity to personally interact with Patty and other successful terrier breeders representing various terrier breeds.

Patty began her dog career working with the terrier icon, Thomas Gately, in California. There she acquired an in-depth knowledge of the breeds in the terrier group – acquiring an understanding of their nuances. She went on to work with William Trainor and, more latterly, with the recently retired and famed terrier expert, Peter Green.

Patty's homebred Lakeland, Ch Kilfel Pointe of Vu, won BIS at Devon and Montgomery. She is a talented artist, a gifted teacher and speaker.
